New book launch December 1st Daily Manna by Dr William F Kumuyi
ISBN 978-1-905493-79-1 Printed and Published in the UK £12

“One of the greatest living preachers in the world” launches the first UK version of Daily Manna

Pastor William F Kumuyi is not yet a household name in the UK, but that is changing fast. Worldwide he is already well known for his powerful preaching and is leader of probably the third largest non-denominational Christian Church in the world, the Deeper Life Bible Church, now one of the fastest growing Christian churches in Britain.

Since his days as a mathematics lecturer in Lagos in 1973, Pastor William F Kumuyi has had a great love of the Bible. He felt drawn to share this with others and started a small Bible study group for a handful of his fellow students. Word soon spread and the number grew and grew. By the early 1980s that small group had grown to several thousand, at which time Deeper Life Bible Church was formally established.

Four decades later and the church spans five continents and sees crowds of 120,000 adults worshipping together. His sermons and teachings reach millions more online and through his many recordings and publications. A truly amazing achievement.

In the UK he already has a national following with churches in nearly forty cities. With so many established churches having to close their door because of dwindling congregations, by contrast Deeper Life has a huge new church under construction in South London.

Of all Pastor Kumuyi's many books, the one which attracts the most interest at this time of year is "Daily Manna", a book of daily short devotions, based on his choice of scriptural readings. From January 1st onwards, it provides spiritual guidance and wonderful insights to specially selected bible passages, to help the reader start each day in the best possible way.

Daily Manna was first published in the USA for his many church members over there and became essential reading. Now for the first time, there is a new UK version being published by Filament Christian Publishing in London, ready for the New Year.

The entry for each day starts with a bible text as suggested reading. Secondly, the chosen text is examined in detail and developed with biblical and contemporary illustrations. Thirdly, the lesson is applied to real-life situations to enable readers to receive divine instruction, admonition, counsel, warnings, encouragement and support.

Finally, a daily thought is provided so that the chosen passage will linger in their mind throughout the day.

Pastor Kumuyi believes in reaching out to all with the whole gospel. His ministry spans over four decades and has produced many who are now themselves accomplished teachers of the word. Millions have come to the knowledge of the truth through his evangelistic campaigns.

Daily Manna is published in paperback by Filament Christian Publishing at £12 and is available in good bookshops, on Amazon and other online retailers. It is also available on Amazon Kindle and other electronic formats.

See www.williamkumuyi.org for more background.
